

Coronavirus

The Coronavirus is a virus that makes me feel unwell.

I may have: a fever, a cough, sore throat, difficult to breathe.

If I feel unwell, I must stay in bed and have medicine to

feel better.

I can help stop the coronavirus by:

1. Washing my hands with soap and water - all over my hands

and between my fingers.

2. sneeze in a tissue, put the tissue in the bin, wash

my hands.

To help stop the coronavirus school will closed for

_____ weeks.

I have to stay at home.

I cannot go out.

My family will help me choose activities, jobs, work

or games.

When Coronavirus has finished, I will be able to go out

and back to school.

I am safe.
